This List Cancels All Previous Editions

### FOR YOUR INFORMATION:

**SHIPPING**—Please give definite shipping directions, also whether you desire shipment to be made by freight or express. Also route if possible. If no directions are given we will forward to the best of our judgment without assuming responsibility, as **ALL GOODS TRAVEL AT PURCHASER'S RISK AND EXPENSE**. As every care and attention is given to packing and shipping, risks of every description, accidents or delays of carriers, are to be borne by the purchaser. When losses occur by detention, claim should be at once made on the carriers. Purchasers have the right to fully examine the goods ordered, or to have them examined by anyone appointed by them before they leave our nursery.

**PRICES**—The prices quoted are as reasonable as is consistent with first quality stock carefully graded and properly handled, that it may reach destination in the best possible condition. Should there be any reason for complaint, we must be notified promptly within five days after arrival of goods at destination, otherwise any claims or complaints will not be entertained. We make it a point to give all reasonable claims proper consideration. Should some size or variety called for in the order be exhausted, we reserve the right, unless otherwise instructed, to supply some other variety or size nearest to it. Prices are limited to actual nurserymen only and are subject to change without notice.

**RATES**—Orders for Transplants must call for at least ten of any one variety and size. Orders for Young Stock for Lining Out must call for at least fifty of any one variety and size. For personal selection at nursery, there is an additional cost of 25 per cent. Fifty of the same variety and size at the 100 rate. Five hundred of the same variety and size at the 1,000 rate.

**TERMS**—To customers of approved credit, or who supply satisfactory references the usual terms will be extended. First orders from all firms not having an account with us should be accompanied by full cash remittances, which earn 3% discount and boxing free.

**BOXES AND BALES**—Boxes and bales will be charged for at actual cost of material used. We make no charge for delivery to the railway station.

**GUARANTEE**—We exercise the utmost care and diligence to have our varieties true to name and on proper proof will replace all trees that may prove otherwise, or refund the amount paid. At the moderate price at which we sell our goods we give no warranty, expressed or implied, except genuineness, and that goods are packed and shipped according to our best methods, the purchaser assuming all risk and responsibility upon arrival at destination, planting, growth and life of stock. No agent or representative can alter these terms. If the purchaser does not accept the goods on these terms they must be returned to us at once and any money paid us for them will be refunded. All orders are accepted upon condition that they shall be void should any injury befall the stock from frost, hail, drought, or other causes over which we have no control before shipment, and void also at our option should we be prevented from filling order by strikes or causes over which we have no control. In consideration of our reserving stock on orders, cancellations will be subject to our acceptance.

**SPECIAL NOTICE**—Correspondents are requested to use their printed business letter-heads. This list is for nurserymen only and in justice to our trade customers, we use every possible effort to limit the distribution of trade prices to those we know to be entitled to receive them. **USE PRINTED STATIONERY.**

**LOCATION**—We are situated in Northern Illinois, on well drained, rich, fertile soil, located forty-two miles northwest of Chicago. Visitors are always welcome. For complete directions for reaching Nursery see page 24.

## Hill's Choice Young Evergreens

This list includes a complete assortment of young Evergreens for nursery planting. We offer Seedlings, Rooted cuttings, Grafts, Once transplanted and Twice transplanted grades. Unless you have the special equipment necessary to handle Seedlings, we recommend Once and Twice transplanted sizes for planting or for immediate retail sales. See pages 12 and 15 for Specimen sizes for high class Landscape work.

We are anxious to secure your patronage and will try to please you.

## Evergreen Seedlings and Rooted Cuttings

Suitable for Bedding Out. Strong, Thrifty, Well Graded Stock.

The propagation of young Evergreens has been one of our specialties for a great many years. Our soil and climate is especially adapted to their culture. Great care is exercised in selection so that only hardy, dependable types are produced.

We recommend bedding out young Evergreens where they can be shaded and watered for a year or two before planting out in open field rows. Plant in rows about one inch apart and rows about four inches apart, so the soil can be kept loose with a hand weeder.

(See pages 9, 10 and 11 for Evergreen transplants)

Orders for Twice Transplanted Stock must call for at least 50 of any one variety and size.

Hill's twice transplanted Evergreens have good root system and bushy tops. They give quick results when lined out in your Nursery.

Specimen Evergreen Showing Hill  
Method of Ball and Burlap

## Hill's Specimen Evergreens for Landscape Work

Nurserymen who have a landscape department and whose trade demands the use of high class planting material, will find Hill's Specimen Evergreens just suited for their needs.

Every Hill Specimen Evergreen is carefully hand dug leaving a large solid earth ball about the roots, which is securely burlapped. Our soil contains just enough clay so the earth ball remains intact. This makes it possible for us to ship long distances by Freight with excellent results.

Hill's Specimen Evergreens have been several times transplanted and root-pruned, are grown in wide rows, and have been trimmed and staked. In fact every tree has been given individual attention in order to produce the best trees possible to grow.

B&amp;B signifies Balled and Burlapped

All Hill Specimen Evergreens are hand dug, leaving a solid ball of our rich, prairie loam about the roots. Evergreens handled in this manner scarcely know they have been moved. They put on a good, healthy growth the first season.

A Bird's Eye View of the Hill Nursery

### One of the Many Uses of Hill's Hardy Evergreens.

## Window Box Evergreens

### For Winter Window Boxes, Urns, Etc.

The Evergreens offered on this page have been carefully selected after several years experience in growing high class Evergreens for window boxes, urns, etc.

Boxes can be made up with various arrangements of Evergreens. The box featured above is only one of many styles of planting, the arrangement may be varied according to the surroundings.

Note: These trees come carefully packed all ready for planting. We do not furnish window-boxes as we have found it impractical to carry a complete line suitable for all kinds of planting. For best results boxes of good depth should be used. Of course the heavy balled and burlapped stock will require special boxes. For the smaller trees use boxes that run at least 8x8-in. It is a good plan to water heavily and freeze the boxes up solid in the Fall, this will keep them fresh all winter.

### **Especially Grown, Bushy, Symmetrical Stock**

Variety	Size	10	50
50 Evergreens Packed in neat Wooden Case—			
Assorted Varieties (Our Selection) Per Case-----	12-18 inch	\$ ---	\$22.50

Evergreens for Tubbing

For Outside Winter Decoration

Clipped Specimens, Well Grown, Bushy, Compact Stock

Individual specimens of Hardy Evergreens stand at the head of the list for outside or inside decoration both Summer and Winter. Hotels, Clubs, Restaurants, Business Blocks, Apartments, Residences, etc., consider these an important part of their Winter decoration. An additional advantage of Hardy Evergreens is their ability to withstand continued freezing without injury.

The various types of Evergreens, including the Globe, Pyramidal and Ball Shaped Species, in different shades of green, may be worked into any decorative scheme, and prove very attractive. We have given this line special attention for several years, and have worked up an extensive stock, in the best varieties, suitable for your trade.

Note: To insure best results from Tubbed Evergreens soak the roots thoroughly just before they freeze up in the Fall. As far as possible protect the trees against sudden thawing and freezing.

We do not furnish the tubs, but supply specially grown specimens dug with solid earth ball securely burlapped ready for tubbing. In selecting tubs for planting it is best to use those of ample size. They should be at least 12 to 15 inches deep and equally as wide.

It would help to keep the trees in better condition if a small amount of humus or good rich soil is supplied at time of planting.

Variety		Size	Each	Matched Pairs

Our Motto is Grown Right, Dug Right, and Packed Right

## Scenes in Hill's Nursery

## How to Reach Our Nursery

Visitors are always welcome. We are conveniently located only 42 miles north west of Chicago.

When coming by the way of Chicago, you are directed to the C. & N. W. Depot on Madison Street, from where it is an interesting ride of one hour and thirty minutes direct to Dundee.

For an hourly service from Chicago, take the A., E. & C. Electric Line at Wells Street and Jackson Boulevard, direct to Elgin, transferring to the Dundee-Carpentersville car, getting off at Stop No. 4, from where it is but a two-minute walk direct to our office, which is located right on the nursery grounds.
